L.P.G. POTTERY KILN AND FURNACE BURNERS

FEATURES

- *Fully adjustable air inspirators giving complete flame control and precise mixing.
 - *Flame failure fitted.
 - *Main flame regulated via needle valve.
 - *Excellent turndown characteristics.
 - *Quiet operation
- Complete oxidation or reduction possible.

SIZES AVAILABLE

BSP	Capacity/hr. @ 100kpa		
1"	81 MJ (77,000 BTU)		22.56 KW
1¼"	174 MJ (165,000 BTU)		48.35 KW
1½"	224 MJ (212,000 BTU)		62.13 KW
2"	375 MJ (355,000 BTU)		104.04 KW

*Special sizes and ratings on request.

OPTIONS AVAILABLE

- *Pressure gauge fitted to burner.
- *Large preheating pilot to dry ware.
- *Basic burners.
- *Long venturi burners for even better control.
- *Electronic ignition and flame detection.
- *Flex hoses and fittings.

ANCILLARY EQUIPMENT

- *Regulators and gauges.
- *Manual and auto change-over manifolds.
- *Manual or fully automatic temperature control.
- *Flame safety equipment.
- *Balances for weighing glazes.
- *Pyrometers, analogue and digital.
- *Digital atmosphere analysers.
- *Nature gas burner systems.

OTHER PRODUCTS INCLUDE:

- *Burners for glass working and annealing. *Air/gas torches. * Jewellery and silvers smithing torches.
- *Bunsen burners and bench turrets. * Special burner tips.
